KEEP OUR CAR PARK FREE

We, the undersigned, want Derbyshire County Council to review the decision to make the Willington Picnic Area car park a pay and display.

Parking has been free for more than forty years. The car park is a vital community asset in the centre of Willington where off street parking is very limited.

The car park is used by many people who visit Willington and use and support the businesses and the facilities availableespecially the many daily rail commuters who use our railway station.

Massive extra congestion on an already congested road network leading through the village to and from the A38 and A50 would arise as cars would park on the narrow streets to avoid paying car parking charges.
